PROPOSAL 1: CAPE BEAN COFFEE CO.

1. Organisation Overview

Cape Bean Coffee Co. is a stand-alone coffee house in the CBD, Cape Town. Founded in 2023, It is dedicated to locally roasted coffee and a community-minded approach to the cafe. They are missioned to "Serve great coffee and make a place where people connect" and their target audience is students, freelancers and young professionals aged 18-35 that work remotely or meet in the city.

2. Website Goals and KPIs

The first Goal – 30% more people will walk through doors in 6 months because of the online menu.

Goal 2: For the phone enquiries, ensure that it is available by the hours of operation, location, and menu info on the website, reduce it by 40%.

KPIs: Google Analytics sessions, number of "Get Directions" clicks, Contact form submissions per month.

3. Key Features and Sitemap

Sitemap:

Home > About Us > Menu > Gallery > Enquiry/Contact

Key Features: Responsive navigation, online menu with prices, photo gallery, embedded Google Maps, contact/enquiry form for bookings and catering.

4. Design and User Experience

The brand's colours are warm brown (number #6F4E37), cream (number #F5F5DC) and accent green. Use of font: Montserrat for headings, Open Sans for body. The design will be mobile-first and will have a large hero shot of coffee and obvious CTAs such as "View Menu" and "Order Now". Navigation will be sticky at the top for easy access on all 5 pages.

5. Technical Requirements

The site will use semantic HTML5 with styling of CSS3. The mobile menu and form validation will be done in JavaScript. Images will be optimised for speed. Will be deployed at GitHub Pages, will have private code hosted on GitHub with regular commits

6. Budget

Domain Registration: R150 per year

Web Hosting: R0 - GitHub Pages

Content Creation: R0 - In-house photos

Total Estimated Budget: R150

7. Timeline

Week 1: Proposal + Content Research

Week 2: Build HTML structure for 5 pages.

Week 3: Add CSS, test responsiveness, debug.

Week 4: Final testing, README, submission

8. Content Plan

Text: About story, menu descriptions, contact details will be written in-house.

Images: Sourced from Pexels and original photos of the shop.

Legal: All images will be royalty-free and cited in <http://README.md> using Harvard referencing.

PROPOSAL 2: YOUTH CODE SA

1. Organisation Overview

Youth Code SA is a Cape Town based NPO established in 2022. It offers Coding and Digital Skills to high school students in under-resourced communities. The mission of the mission is "To equip young people in South Africa with tech skills to get them jobs". The audience is learners between 14 and 18 years old, parents, and corporate sponsors.

2. Website Goals and KPIs

Goal 1: Increase volunteer sign-ups by 50% by making the process online.

Goal 2: Attract 3 new corporate sponsors in 12 months through a professional web presence.

KPIs: Number of volunteer applications, donor enquiries, newsletter sign-ups.

3. Key Features and Sitemap

Sitemap:

Home > About Us > Programmes > Get Involved > Contact/Enquiry

Key Features: Mission statement on homepage, programme details, photo gallery of workshops, "Volunteer" and "Donate" enquiry forms, embedded YouTube video of impact.

4. Design and User Experience

The brand uses blue #0057B8 for trust, orange #FFA500 for energy, and white. Font: Poppins for headings, Lato for body. The design will be clean, accessible, and inspiring. We will use big images of learners coding and clear CTAs: "Become a Volunteer" and "Support Us".

5. Technical Requirements

The brand colours are blue #0057B8 for trust, orange #FFA500 for energy and white. Headings: Use Poppins font. Body: Use Lato font. The design will be neat, user-friendly, and motivating. Big pictures of learners coding and clear CTAs "Become a Volunteer" and "Support Us" will be used.

6. Budget

Domain Registration: R150 per year

Web Hosting: R0 - GitHub Pages

Content Creation: R0 - Photos from workshops

Total Estimated Budget: R150

7. Timeline

Week 1: Proposal + Content Research

Week 2: Build HTML structure for 5 pages.

Week 3: Add CSS, test forms and responsiveness.

Week 4: Final testing, README, submission

8. Content Plan

Text: Programme info and impact stories written by team.

Images: Original photos from workshops with permission.

Legal: All learner photos will have consent. Sources cited Harvard style.
